

PVC protection tape

White – clean removable

Description

The PVC tape is made to protect surfaces and to be clean removable from most surfaces.

Applications

- Protection from surfaces like window frames
- To stick foil
- To protect surface during cleaning or during building.

Product benefits

- Good sticking
- Clean removable from most surfaces (if any doubt we recommend to test at a small part to be sure)
- Flexible and conformable
- Easy tear
- Service temperature -10 to +60°C
- Temperature resistant 80° C (short)

Technical Properties

a. Total thickness	µm	140±10%	130-145	GB/T 7125-1999
b. Adhesion	g/25mm		270-320 g	GB/T 2792-1998
c. Unwind force	g/25mm		390-480 g	GB/T 2792-1998

Recommendations

The rolls should be stored flat on their cut edges in the original packaging, until required for use. The product must be protected from dust, heat, moisture, direct sunlight and solvent fumes. Shelf life will vary with conditions of use and is affected by climatic environment, but should not be less than one years from date of manufacture, if stored in a moderate climate and good conditions.
